

## Internal Medicine

Dr. Cain will work closely with your regular veterinarian to solve complex medical problems and offer second opinions on diagnostically challenging medical cases. This can involve interpreting various test results or performing special procedures that are not commonly done in general practice.

## Canine Reproduction

With a special interest in Canine Reproduction, Reproductive Health and Pediatrics, Dr. Cain offers reproductive services to breeders seeking professional expertise in developing individual breeding programs.

## Emergency Reproductive Services

In the event Dr. Cain is not available for an emergency procedure, pets can be brought into the hospital during regular office hours and will be treated by an attending veterinarian. Staff veterinarians will consult with Dr. Cain and review your pet's complete medical history. The hospital provides 24-hour care for any pet requiring hospitalization and overnight care.

# Canine Reproduction

“Whether I am consulting with your veterinarian to solve complex medical problems, or working with you to develop a customized breeding program, it is in these situations that I can use my experience to make a difference in your pet’s life”.

– Janice L. Cain, DVM, ACVIM

## When would your pet need an Internist?

Diseases treated and procedures performed by internists include, but are not limited to:

- **Gastrointestinal diseases (endoscopy)**
- **Liver disorders (ultrasound, biopsy and laparoscopic biopsy)**
- **Endocrine diseases (Addison’s, Cushing’s and Diabetes)**
- **Pancreatitis**
- **Autoimmune Diseases (hemolytic anemia, thrombocytopenia, polyarthritis)**
- **Fever and pain of unknown origin (complete medical evaluation)**
- **Kidney Failure (medical management)**
- **Bronchopulmonary disorders (bronchoscopy)**
- **Urogenital diseases (ultrasound, cystoscopy)**

## Why consult with an expert in Canine Reproduction?

With over 20 years experience in all dog breeds, Dr. Cain provides reproductive services for novice and professional breeders to meet the special needs of both dog and owner.

Reproductive services include:

- **Cesarean Sections**
- **Post-partum Monitoring & Neonatal Care**
- **Semen Freezing**
- **Semen Collections**
- **Artificial Insemination (fresh, chilled and frozen semen)**
- **Ovulation Timing**
- **Transcervical Insemination (TCI)**
- **Surgical Insemination**
- **Infertility Evaluation**
- **Ultrasonography for Pregnancy Diagnosis**
- **High-Risk Pregnancies**
- **Prostate Diseases**
- **Uterine, Vaginal and Mammary Diseases**
- **Treatment for Pyometra and Mismatching**

## Unprecedented Personal Service

Dr. Cain makes every effort possible to be available for patients 7-days a week when reproductive procedures cannot wait such as artificial insemination, TCI, semen collection for fresh-chilled shipments and emergency cesarean sections. Clients are encouraged to call or email Dr. Cain with any pressing medical questions or concerns.

### Office Hours:

To schedule an appointment with Dr. Cain during regular office hours, please call the hospital directly at:

**(925) 866-8387**

Appointments may be scheduled outside of Dr. Cain’s regular office hours for procedures that cannot wait and should be scheduled directly with Dr. Cain on an as-needed basis.

### Home Voice Mail:

**8am – 10pm, 7 days a week**

**Phone: (925) 462-6445**

**Email: [dr Cain@webvets.com](mailto:dr Cain@webvets.com)**
